

Collection Point Quick Setup Guide

1. Download the App

- Download the ResiLoop App (for Android or iPhone) and link to your business
- Use the App for pickups, supplies, what's in/out + short videos
- Track your project results

2. Set Up Bin

- Place Bin Box on a pallet and fit bin bag liner
- Keep your cartons of HO / HE / LVT collection bags nearby
- Keep undercover (dry)

3. Brief Floorlayers and Fill

- Brief your floorlayers on the ResiLoop system, including what we can and can't take
- Remind them to take clear collection bags to site when ResiLoop Member products being installed
- Return filled bags to your depot and drop into the Bin Box (check and remove any contamination)

4. Prep and Book Pickup

- Remove full bin bag liner
 - Place on pallet
 - Secure so it's transport ready (ties / shrink wrap)
 - Use App to request pickup: Submit L / W / H + weight + photo via App
- No scales? Provide estimate or use ResiLoop average of 540 kg per full bin liner bag*

5. Order More Supplies

Request Collection Bags and Bin Liner Bags via the App

6. Optional: Track by Project

Use the App to allocate offcut collections to a project (for client reporting)
