## ONE SCHEME. ONE BIN. MANY BRANDS.

\*Most safety flooring can't be collected due to non-recyclable content such as silicon carbide ("carborundum") or aluminium oxide to provide the non-slip performance. Safety products that we can collect are: Armstrong Accolade Safe®, Armstrong Natralis® and Altro Cantata™ (adhesive-free).

\*\*Bolon's woven vinyl products can't be collected yet, but this supplier is helping to fund the future of recycling.
